## WATCH OUT FOR

### SONOBE COLLECTION

The Sonobe Collection is a series of lampshades designed by Kyla McCallum, a student on the product design Master of European Design programme. Each lamp is constructed using hand-folded, modular segments that are carefully pieced together. The series is a limited edition with just 20 of each piece available for sale. An installation of the collection can be found on the 1st floor of the Mackintosh Building, in an alcove between the Mackintosh Room and studio 38. More of the series can be viewed in Skypark at the product design show on the 3rd floor.

## NEW FOR JULY

### THE GLASGOW SCHOOL OF ART CITY WALKING TOURS

Explore two incredibly fertile periods in the creative life of this surprising city, through new walking tours conducted by GSA's award-winning student guides.

See the city as never before with a young artist, designer or architect as they offer insight into 'the Glasgow Style' and 'the Glasgow Miracle'. Tours commence July 9th.

#### THE 'GLASGOW STYLE', ART, ARCHITECTURE & DESIGN IN THE INDUSTRIAL CITY:

The first of the two walking tours focuses on Charles Rennie Mackintosh, his contemporaries and their contribution to Arts & Crafts, Art Nouveau and Art Deco in this thriving industrial period in Glasgow, the 'Second city of the British Empire'.

#### THE 'GLASGOW MIRACLE', ART, ARCHITECTURE & DESIGN IN THE POST INDUSTRIAL CITY:

A journey through the remarkable creative regeneration of Glasgow in the years following the decline of the heavy industries, a phenomenon termed by Swiss curator Hans Ulrich Obrist as "The Glasgow Miracle". This dynamic tour sheds light on a new generation of brilliant Glasgow girls and boys, and on the impact of new work in art, design and architecture from The Glasgow School of Art on the modern city.
