

Master of Fine Art (MFA)

Guidelines for Applicants

Programme Overview

The MFA is a two-year, multidisciplinary programme of study that offers students an extraordinary opportunity to analyse their studio practice in depth, and to modify, develop and secure it accordingly. The multidisciplinary context also ensures that such developments are protected against narrowly defined ambitions.

MFA students learn from, and contribute to, the delivery of the programme curriculum, the experiences of their peers, and the wider art community based within the city of Glasgow. Within this situation a premium is placed upon independence, originality, initiative and enterprise.

Students develop their own working practices in order to explore and advance their own specific interests and academic agendas. Such interests usually take the form of a combination of formal, technical, thematic and theoretical concerns. Students are also encouraged to explore their practices in relation to wider cultural, theoretical and historical contexts by means of individual research activity. Regular tutorial support from MFA core teaching team and a wide range of visiting lecturers (e.g. artists, critics, curators) allows students the opportunity to discuss their work with experts, and critical feedback is also available by means of regular group critiques.

- Guidelines for the [contents of your digital portfolio](#) and [how to upload](#) are included on the following slides.

Uploading your digital portfolio

We accept two formats for uploading a digital portfolio:

1. A single PDF file, consisting of approximately 20 pages (please note portfolios that are longer may not be fully read).
2. Or 20 individual images.

If including moving image or sound work:

- These can be viewed via a hyperlink (included in your PDF document) to Vimeo or YouTube. Access to these websites should not be password protected.
- These can be viewed by inputting a URL link into the designated field.
- The clips must be limited to a maximum of three minutes.

A link to your professional website can be included, however this should supplement the digital portfolio.

Please note, you MUST upload your Digital Portfolio as outlined above. Submitting your portfolio via a URL link to Dropbox folders or other external cloud services will not be accepted.

What should I include in my digital portfolio?

1. Include fully resolved artwork with a focus on those pieces made in the past 3 years.
2. You can also include some work in progress to show recent experiments and explorations.

The statement should demonstrate that you have researched the programme and indicate the reasons why you think it is best suited to the future development of your practice

- You may write about:
 - your reasons for applying to the MFA
 - your interests and experiences within your practice;
 - what you hope to gain by studying on the programme;

- The interview is a two-way process; for you to gain a better understanding of GSA and your chosen programme, and for academic staff to find out more about you and your work.
