

Postgraduate Funding

Students often fund their postgraduate studies through a mixture of savings, family support, part-time work earnings, statutory student loans and scholarship support. The following information may help in your search for funding. All sources of funding will have eligibility criteria and you should check these carefully before making an application.

Tuition Fee Status

The tuition fee you will be charged by GSA will be determined by your residency status.

GSA Tuition Fee information: <https://www.gsa.ac.uk/life/fees,-funding-finance/programme-fees/>

Home Fee Status:

Students from the UK - students who are ordinarily resident in Scotland, England, Wales or Northern Ireland and have been resident in the UK, for reasons other than study, for 3 years.

Students from the Republic of Ireland (ordinarily resident for 3 years) also qualify for Home Fee Status.

International Fee Status:

Students from outside the UK (including EU nationals and associated groups without Settled/Pre-Settled Status – see info below).

Students from the EU (excluding Republic of Ireland)

If you live in the EU (excluding the Republic of Ireland) and do not have Settled/Pre-Settled Status under the UK Government's [EU Settlement Scheme](#), you will be charged the **international tuition fee rate**.

Some new students from the EU, with the right to live in the UK, **may** be entitled to a 'home' fee status:

- If you have Settled/Pre-Settled status under the UK's EU Settlement Scheme
- If you are from the Republic of Ireland
- If you are British but live in the EU
- If you have dual UK/EU nationality
