NOTES

- * Please note the PSE course requirements show the minimum entry levels. If your level is higher, you can still join the PSE course at an earlier stage if you feel it can help you.
- * If your scores are borderline, it is better to err on the side of caution – the course is intensive and demanding and may be different from English courses you have taken so far.
- * If you have a jagged profile, that is one with big discrepancies between individual scores, it is worth thinking carefully which course is the best fit. The best is to consult the Pre-Sessional Administrator to get personalised advice.
